Lewis Gichobi

Objective

I am a 3rd year Computer Science student seeking technical training in form of internship to advance my awareness, skills and knowledge. Offering a foundation in front-end programming, UI/UX design and project management, with a proven ability to drive efficiency, deliver successful outcomes and collaborate within cross-functional teams, very much eager to contribute to your innovative projects and further develop my skills in a dynamic environment.

Kianyaga High School
Mean Grade A-

2008-2015
Kerugoya Good Shepherd's Academy
Grade 398   Mean Grade A-

Expertise

- UI/UX
- Python
- Front-end programming
- Video Editing
- User Flows
- Process Flows

Motivation

I am especially interested in the chance to get knowledge from prominent figures in the field and provide new insights to the projects your team is working on. As someone who loves lifelong learning and development, I'm thrilled about the chance to fully commit to a demanding yet fulfilling internship.

On the left side view, I have the link to my responsive portfolio website where I showcase my skills, projects and achievements in the field of computer science.
Utilizing HTML, CSS, and JavaScript to create an interactive and visually appealing platform for potential employers and collaborators

I have been deeply involved in web design using tools like Figma and in front-end development during my academic journey, learning languages like HTML, CSS, and JavaScript. I am skilled at converting design ideas into useful and aesthetically pleasing user interfaces that maximize user delight. I have also been able to create responsive and interactive web applications using frameworks like Angular and React.
